Date

13th-15th September 2021

The symposium goes Online because of the situation around COVID-19.

Background

The conference is a continuation of the preceding fifteen conferences that have been held in the name of Asian International Conference on Fluid Machinery.

It has developed from the fourth conference (1993) as an International Conference though the start was held in two countries of Japan and China. After that the conference were held in Seoul (1997), Johar Baru (2000), Fukuoka (2003), Yichang (2005), Jeju (2007), Kualalumpur (2009), Chennai (2011), and Yogyakarta (2013), Tokyo (2015), Zhenjiang (2017), Busan (2019).

The Asian Fluid Machinery Committee (AFMC) was established during the 9th AICFM 2007 held in Jeju, Korea.

Objectives

- To promote a platform for sharing of knowledge among researchers in the field of fluid machinery
- To encourage partnership between academic and industry
- To discuss the role of fluid machinery in light of sustainable development, depletion of conventional energy sources and environment challenges
- To establish and strengthen the Asian and regional networking
